One of the many functions of Vitalacy's WebApp is to provide a detailed staff rounding report to managers and administrators. This tool can be used to ensure that patients are receiving adequate care and provide a safety net for staff members to be able to communicate accurate patient care time. The following instructions will help you become familiar with the staff rounding reports.

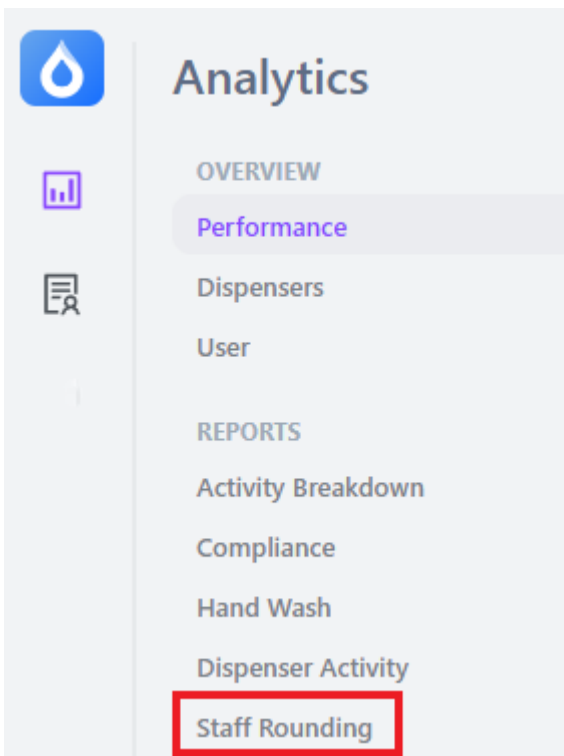

Click the 3 lines at the top left of any Vitalacy web page.

The screenshot shows the Vitalacy Performance Overview dashboard. On the left is a vertical navigation menu with three icons: a water drop (home), a bar chart (analytics), and a document with a person (reports). The main content area has a title 'Performance Overview' with a red-bordered menu icon to its left. Below the title are two filter buttons: 'Demo Organizat... +30' and 'Profession'. The main data section is titled 'Compliance' and shows two metrics: 'Total 69%' with a green upward arrow and '9.7%' next to it, and 'Average 69%'.

Click the Analytics icon on the left side.

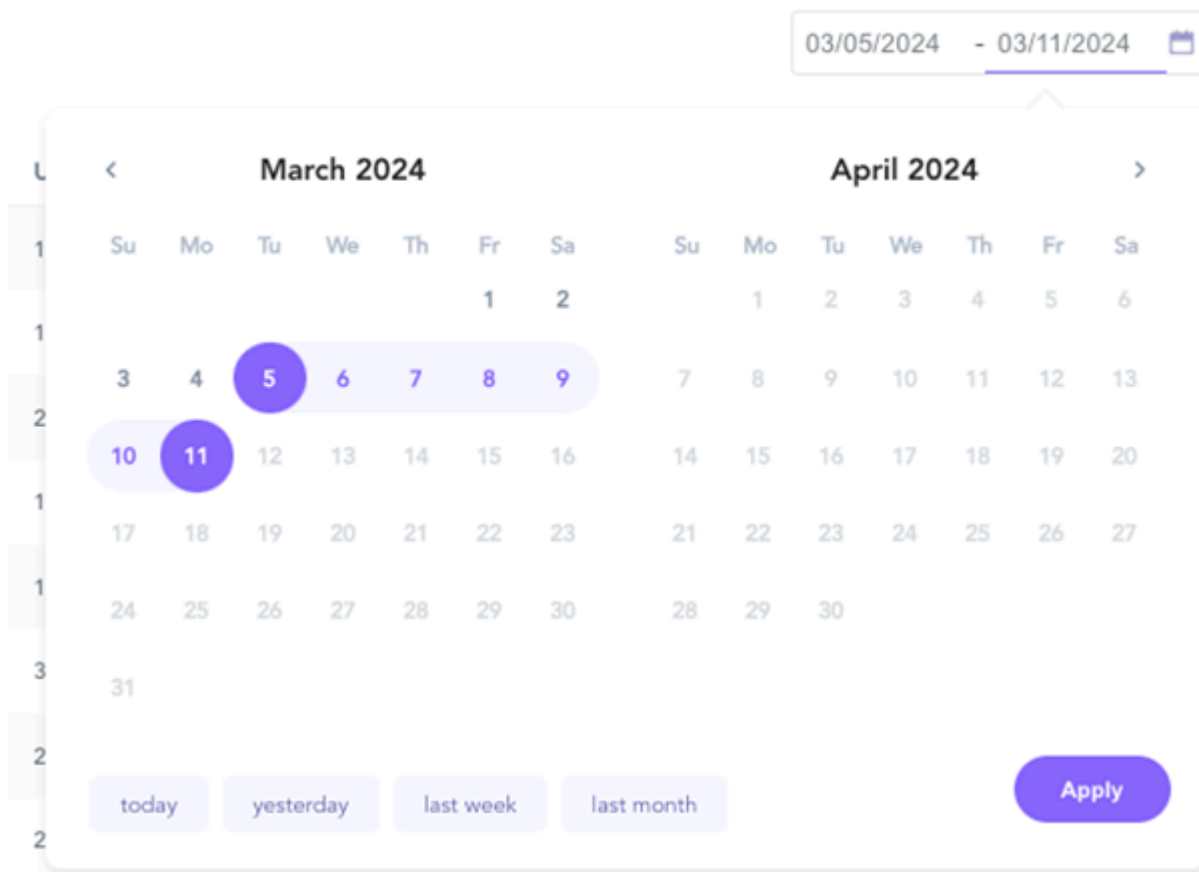

Then click on Staff Rounding.

From this page you can see how much time each staff member spends with patients, or how much time each room has been attended. You can sort the list by clicking any of the column headers such as “Name”, “Profession”, “Total Bed Visits”, etc.
